

## INTERNATIONAL ROAMING CALL RATES

When you make a call or send a message from a Networks Broadband and Mobile Communications mobile service (connected to the Optus Mobile Digital Network) you will be charged the zone rate of the overseas country you are roaming in.

When someone calls you (from Australia or overseas), they will be charged the applicable cost of a call or message to a mobile in Australia or their local country and you pay the zone rate for receiving calls in the country you are roaming in. Indicative rates are detailed in the table below.

**These rates apply to mobile calls and data usage while outside of Australia on your Networks Broadband and Mobile Communications mobile service. All roaming charges are excluded from your plan's included value.**

- Charges apply for both making and receiving calls when roaming overseas.
- To avoid accidental use and unnecessary roaming charges, remember to lock your mobile keypad after use.
- Roaming rates and the zone assignment for a particular country are subject to change without notice, therefore pricing shown is intended as a guide only.
